

In-Patient Setting

**I. INTRODUCTION**

This document contains sample test data that can be used for the certification towards 2015 objective 170.315(g)(9). This section of the Code of Federal Regulations Title 45 documents the required Health IT technology to be able to create a summary care record formatted according to the Consolidated CDA (C-CDA) Release 2.1

A) Test of 45 CFR 170.315 (g) (9)

<Include text of 45 CFR 170.315 (g) (9) here for reference>

B) Summary of test data presented herein

**Conventions used in the document:**

1. The test data outlined below has both required and optional data that is specified to help the vendors create C-CDA's with the appropriate context and follow the HL7 C-CDA best practices. The optional data is indicated by enclosing them in [ ]. For e.g. [Medical Record Custodian] or [Allergy Substance].
  - a. When a narrative or text block is surrounded by [ ] the entire narrative block is optional.
  - b. When a column heading is surrounded by [ ] the data represented by the column is optional. For e.g. [ Allergy Substance ], the display name is optional.
  - c. When the data within a table cell is surrounded by [ ] the data within the cell is optional. For e.g. The information recipient Dr Albert Davis is optional from a certification standpoint. Vendors can include it in their C-CDA's to comply with HL7 C-CDA IG and best practices.

[ Information Recipient ]	[ Dr Albert Davis ]
---------------------------	---------------------

- d. The C-CDA IG allows display names and text elements to be optionally included in the structured entries. Hence the above optional markings designated by [ ] in the test data are with respect to the structured entries in the XML. If a certification criteria requires visual display of the structured data (for e.g View, Download and Transmit - VDT), then the vendors have to display the coded data elements in their English representation. For example Medication Name, Problem Name, Vital Sign Name which are English representations of the coded data have to be displayed for the VDT criteria even though they are marked optional in the test data.

2. Additional clarifications are added with the keyword **“Note”**.
3. Data that needs to be visually inspected by the ATL’s in the generated C-CDA’s are indicated by the key word **“Visual Inspection”**.
4. Guidance for No Information Sections: When the test data instructions specify “No Information” for certain data elements, vendors are expected to use the HL7 recommended best practices to represent the information. However vendors don’t have to include sections and entries not required by the document template to represent “No information”.
5. Guidance to Change Test Data: Vendors can work with their ATLs to change the test data specified below. ATLs have been provided a document on how to use the test tools to verify SUT’s capabilities when the test data is changed. This document has also been posted as part of ETT Google Group thread: [https://groups.google.com/forum/#!topic/edge-test-tool/fDYr\\_kqp9\\_g](https://groups.google.com/forum/#!topic/edge-test-tool/fDYr_kqp9_g)

To exemplify 170.315 (g) (9), the following clinical scenario will be employed.

**Document Narrative:**

[ Mr. John Wright is a 35 year old male who is healthy and visits Community Health Hospitals on 7/22/2015 6pm EST due to a skin burn. The doctor examines the burn, applies the needed dressing and discharges the person after a few hours. ]

**Note:** The test data provided in the document was captured during this encounter including historical data. The contextual data provided is to help the vendors create their C-CDA documents using appropriate data. Vendors can ignore the contextual data if it is not required for C-CDA generation; however the generated C-CDA is expected to contain the data relevant to the criteria as specified in the regulation.

**II. HEADER DATA**

**Note:** The following data is part of the medical record header identifying the contextual information necessary when exchanging data.

A) Patient Demographics

CCDS Data Elements	Contextual Data Elements required for the Medical Record encoding to C-CDA IG	Details	Additional Information
Patient Name		First Name: John Last Name: Wright Middle Initial: R Previous Name: Suffix: jr	
Sex		Male (M)	
Date of Birth		8/1/1980	

CCDS Data Elements	Contextual Data Elements required for the Medical Record encoding to C-CDA IG	Details	Additional Information
Race		Unknown	
More Granular Race Code		Unknown	
Ethnicity		Unknown	
Preferred Language		English (en)	
	Home Address	1357, Amber Dr, Beaverton, OR-97006	
	Telephone Number	Mobile: 555-777-1234 Home: 555-723-1544	

B) Relevant Information regarding the Visit

**Note:** The information in this table is provided for context and to help populate the required elements in the C-CDA Header along with any 2015 S&CC data elements.

CCDS Data Elements	Contextual Data Elements required for medical record encoding to C-CDA	Details	Additional Information
Providers Name		Dr Henry Seven First Name: Henry Last Name: Seven	[ Dr Seven and his staff work for Community Health and Hospitals 1002, Healthcare Dr, Portland, OR-97266 ]
Office Contact Information		Mary McDonald First Name: Mary Last Name: McDonald Telephone: 555-555-1002	
	[ Author/Legal Authenticator/ Authenticator of Electronic Medical Record ]	[ Dr Henry Seven Date: 7/22/2015 ]	
	[ System that generated the document ]	[ Community Health and Hospitals Practice EMR ]	
	[ Informants ]	[ Kathy Wright (Spouse) First Name: Kathy Last Name: Wright ]	
	[ Medical Record Custodian ]	[ Community Health and Hospitals ]	

CCDS Data Elements	Contextual Data Elements required for medical record encoding to C-CDA	Details	Additional Information
	[ Information Recipient ]	[ Dr Henry Seven ]	
	Admission Date	7/22/2015 6pm EST	
	Discharge Date	7/22/2015 11pm EST	
Care Team Members	Care Team Members	Dr Henry Seven Mary McDonald	
	[ Other Participants in event ]	[ Mr Mathew Wright (Grand Parent) First Name: Mathew Last Name: Wright Ms Kathy Wright (Spouse) First Name: Kathy Last Name: Wright. (Same address information as Mr John Wright for both Mathew and Kathy). ]	
	[ Event Documentation Details or Documentation of Event ]	[ Dr Henry Seven (PCP) 5 hour encounter Event Code = Burn by Fire ]	[ Code for Burn by Fire: 423123007, Code System: SNOMED-CT ]

### III. BODY DATA

**Note:** The following data is part of the medical record details identifying the relevant clinical data captured as part of the visit.

- A) Medication Allergies:
  - a. No known Allergies

**Note:** Medication Allergies are to be represented using the Allergies and Intolerances Section.

- B) Medications
  - a. No known Medications.

- C) Problems:
  - a. No known problems

D) Encounter Diagnoses

**Note:** Encounter Diagnoses can be represented by either SNOMED-CT or ICD-10. So SUT can choose either the ICD-10 code or the SNOMED-CT code as appropriate from the table below based on the CodeSystem supported.

Code	CodeSystem	[ Description ]	Start Date	[ Service Delivery Location ]
<a href="#">T23.1</a>	ICD-10	Burn of first degree of wrist and hand	7/22/2015	Community Health and Hospitals 1002, Healthcare Dr, Portland, OR-97266
211896002	SNOMED-CT	First degree burn of multiple sites of wrist or hand	7/22/2015	Community Health and Hospitals 1002, Healthcare Dr, Portland, OR-97266

E) Procedures

**Note:** Target Site is provided for context, vendors may or may not choose to include this as part of the C-CDA entries. Date is to be represented using the effectiveTime data element in the Procedure Activity Procedure entry.

Code	CodeSystem	[ Procedure Name ]	[ Target Site ]	[Date]	[ Service Delivery Location ]
90660004	SNOMED-CT	Application of Dressing for burn	281737009 (Skin of part of forearm) – SNOMED CT code	7/22/2015	Community Health and Hospitals 1002, Healthcare Dr, Portland, OR-97266

F) Immunizations

a. No Immunization history

G) Vital Signs

Code	Code System	[ Vitals Name ]	Date	Value and Units
8302-2	LOINC	Height	7/22/2015 [ 6:10 pm EST ]	Value=177 Units=cm
29463-7	LOINC	Weight	7/22/2015 [ 6:10 pm EST ]	Value=88 Units=kg
8462-4 (Diastolic)	LOINC	Blood Pressure-Diastolic	7/22/2015 [ 6:15 pm EST ]	Value=88 units=mm[Hg]
8480-6 (Systolic)	LOINC	Blood Pressure-Systolic	7/22/2015 [ 6:15 pm EST ]	Value=145 units=mm[Hg]
8310-5	LOINC	Body Temperature	7/22/2015 [ 6:20 pm EST ]	Value=38 Units=Cel

H) Laboratory Test: No Lab Tests Information

I) Laboratory Values/Results: No Lab Result Information

J) Smoking Status and Tobacco Use

**Note:** The C-CDA IG specifies how Smoking Status has to be represented using a combination of Tobacco Use and Smoking Status templates. Vendors are expected to follow the C-CDA IG to encode these data elements appropriately

Element Description	[ Description ]	Start Date	End Date	Code	Code System
Current Smoking Status	Current every day	7/22/2015	-	449868002	SNOMED-CT

K) UDI List: No implanted devices.

L) Assessment and Plan of Treatment:

a. **Assessment (Visual Inspection** – ATL’s need to visually inspect the System Under Test (SUT) generated C-CDA for the below narrative content)

- i. The patient Mr John Wright was found to have first degree burns and Dr Seven and his staff Mr Wright by cleaning the burn and dressing the burn and observed for couple of hours before discharging Mr Wright.

- b. **Plan of Treatment (Visual Inspection** – ATL’s need to visually inspect the System Under Test (SUT) generated C-CDA for the below narrative content)
  - i. Schedule an appointment with Dr Seven after 1 week for Follow up with Outpatient facility.
  - ii. In case of high fever, take Tylenol as needed.

M) Goals: No information.

N) HealthConcerns: No Information

- O) Discharge Instructions (**Visual Inspection** – ATL’s need to visually inspect the System Under Test (SUT) generated C-CDA for the below narrative content)
  - a. Appointments: Schedule an appointment with Dr Seven after 1 week. Follow up with Outpatient facility.
  - b. In case of fever, take Tylenol as advised in plan of treatment.

P) Functional Status: No information

Q) Cognitive Status: No information
